

## MAKE THE **DIFFERENCE**

At FAE, every machine, accessory and optional component is designed with utmost precision, the highest quality materials and the most advanced technology. Each detail is designed to make the execution of the tasks as quick and efficient as possible and for the specific applications, conditions and environment where it will be carried out.

Every FAE machine and accessory was created to “make a difference” at work and, given the importance of many of the applications we work on, for the planet. This is why each member of our team, each partner and customer works daily.

# ABOUT **FAE**

With a range of over 90 products and 400 models, FAE can meet the most diverse demands for forestry, agricultural, road construction, building and demining applications. The FAE product range includes heads for tractors, excavators, skid steer loaders, special vehicles and tracked vehicles, with cabins or remote controlled. FAE was founded in 1989, and the company's main office is still located in Fondo, Italy. Production, sales, after-sales service and parts services are handled by our 4 production sites, the main office, 6 commercial branches and a network of authorized dealers all over the world.

## **GLOBAL QUALITY**

Our precision design and production processes use advanced technologies to ensure long-term performance and reliability.

## **CONSTANT INNOVATION**

We design unique and cutting-edge products based on customers' specific needs for solutions that pave the way to the future.

## **COMPLETE PRODUCT LINE**

We offer an extensive product range and a high degree of customization to make each process more efficient, more productive, and easier.

## **TOTAL SUPPORT**

We make our vast range of machines, dedicated accessories and components, as well as our technical assistance available worldwide.

# GLOBAL PRESENCE

FAE is present on all five continents, with 6 commercial branches and a network of authorized distributors and dealers. Constant feedback from the different sectors and customer's needs enriches FAE's product line with increasingly reliable and higher performing products. Wherever you are, FAE is there to help with your specific needs.
